

STAGE MAP & CONDITIONS

Stage: stage surface should be level and at least 5 x 3 Meter in dimension, in dry, clean and stable condition, without moving under work load. At events/private parties with limited space consultation must take place prior to the performance day. The Swing Aces present a Swing Music Show with Entertainment. Hence it makes sense if there's a dance floor in front of the stage.

Open Air: for outdoor events, the stage must be roofed and also the sides must be protected from wind and bad weather.

Light: the available lighting system should illuminate the stage sufficiently. The Band is depending on stage light to read music charts and Katie needs a follow spot!

Power: Upright-Bass-Amp, Piano and Drums need a power outlet on stage. (230 V AC, 16 A, not connected with light nor other non-music devices) evtl. also everybody else for music stand lamps, dep. on stage illumination

Room: a dressing room with a mirror is required for styling and being off-stage. This room should be near the stage and equipped with adequate lighting, a lock (or secured), be clean and heated if need be. Sufficient sitting accommodations, coat hooks/clothes hangers und a sink are useful. Tents must have wooden flooring in the dressing room area.

Catering: various drinks and according to attendance/travel distance a warm meal. This will be fixed in detail in the contract.

Parking: please reserve car space for unloading/loading close to stage & parking.

Sales: the artists have the right to sell records and display promotional material at the event (such as flyers, wall poster etc.)
